### What is the SAT Suite of Assessments?

The redesigned SAT Suite of Assessments is an integrated system made up of these tests:

- **PSAT 8/9:** Establishes a baseline measurement of college and career readiness as students enter high school. It helps students and educators determine what students need to work on most in the areas of math, reading, writing, social science, and science.
- **PSAT/NMSQT and PSAT 10:** The same test, offered at different times of year. They serve as check-ins on student progress and pinpoint areas for development.
- **SAT:** Accepted by all U.S. colleges and universities, it is an opportunity for students to show colleges they’ve got what it takes to succeed on campus.

These tests measure the same skills and knowledge in ways that make sense for different grade levels, so it’s easier for students, parents, and educators to monitor student progress.

### Who should be tested?

All students in grades 9 through 11 *must* be tested during the Spring. CPS schools will also have the option to administer the PSAT 8/9 to grade 9 and the PSAT/NMSQT to grades 10 - 11, and SAT to grade 12 in the fall.

The College Board is committed to making sure that students with disabilities can take the exams with the accommodations they need, and will consider all requests to ensure that we measure students’ academic abilities, regardless of their disabilities.

### How are results reported?

Fall PSAT results are available to schools in the K12 Reporting Portal starting on Dec. 3 – a week before students start receiving their scores. Spring PSAT 8/9, PSAT 10, and SAT scores are available to schools and students in the K12 Reporting Portal in May - June. These SAT results are reported using the following scores: Total 400-1600, Math 200-800, ELA 200-800. In addition, subscores from 10-40 are available for Reading, Writing, Math, Analysis in Science, and Analysis in History/Social Science. Score for PSAT 10 range from Section scores 160-760 and Subscores 8-38. Scores for PSAT 8/9 range from Section scores 120-720 and Subscores 6-36.

Students can opt to have official scores reported directly to the college of their choosing. College Board also has the ability to automatically link score to Khan Academy to provide for official SAT practice.

### How are results used?
