## DEMOGRAPHIC COMPOSITION

The Bronzeville/South Lakefront region is consistently majority African American.

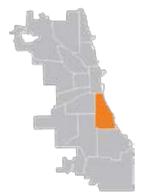

The racial/ethnic composition of the Bronzeville/South Lakefront region has been constant over the past four years, with 92% of its population comprised of African American students. The only change, other than the slight drop in overall population, is an increase of White

students from 1% to 2%. The number and share of students qualified for FRL has also dropped from 86% to 79% in the past four years, which is consistent with the district's decrease.

## QUANTITY

### HOW MANY SEATS ARE THERE FOR THE STUDENT POPULATION?

#### CPS POPULATION

students who reside in region, including those who attend school out of region

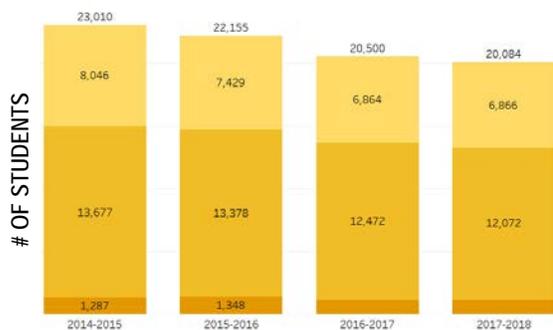

In the last four years, there has been a 6.7% decline in the CPS population in the region (about 1,200 students), which is greater than the 6.0% citywide decline in CPS students. The K-8<sup>th</sup> grade CPS population has declined by 6.3% (compared to district 6.4%) and the 9-12<sup>th</sup> grade CPS population has declined by 7.0% (compared to district 3.1%).

### ARE STUDENTS CHOOSING SCHOOLS IN THEIR REGION?

ELEMENTARY SCHOOL<sup>3</sup>

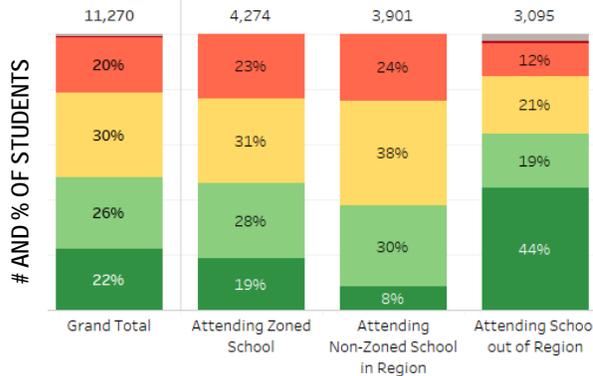

#### SCHOOL CHOICE OVER TIME

School choice is currently defined as attending a school that is not a student's zoned school. School choice has been relatively constant among elementary school students. Over the past four years, the share of CPS students attending their zoned school has declined from 39% to 38%, and the share of CPS students traveling outside the region for school has increased from 24% to 27%.

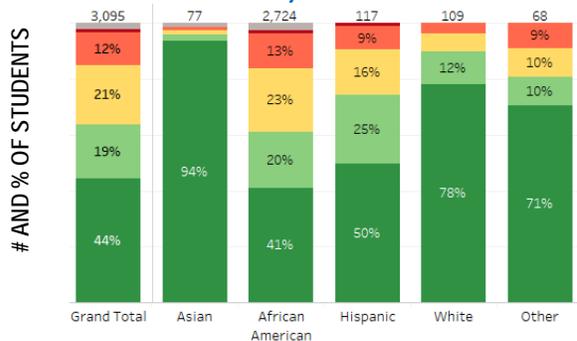

- Attending School out of Region
- Attending Non-Zoned School in Region
- Attending Zoned School

#### SCHOOL QUALITY AND CHOICE

Of the 11,270 CPS elementary students residing in the region, 48% attend a Level 1+/1 school. However, breaking this down by school choice shows that there is a slight disparity in the share of students attending a Level 1+/1 school. 63% of students who go outside the region attend a Level 1+/1 school. However, 47% of students attending their zoned schools and 38% of those who stay in the region and attend non-zoned schools attend a Level 1+/1 school.

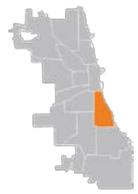

#### STUDENTS WHO ATTEND SCHOOL OUT OF REGION – RACIAL/ETHNIC BREAKDOWN

Of the 3,095 CPS elementary students who attend school outside of the region, 63% attend a Level 1+/1 school (see above). However, African American and Hispanic students who go outside the region attend Level 1+/1 schools at lower rates than White or Asian students. 61% of African American students who leave the region for school attend a Level 1+/1 school; for Hispanic students, that number is 75%. 90% of White students who leave the region attend a Level 1+/1 school and 97% of Asian students do.

<sup>3</sup> Only kindergarten through 8<sup>th</sup> grade students are included in school choice calculations, as pre-kindergarteners are not zoned to a school.

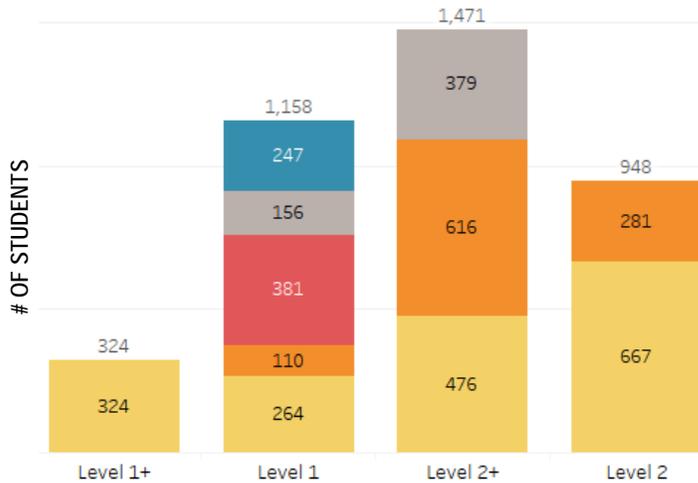

## CHOICE

## ARE STUDENTS CHOOSING SCHOOLS IN THEIR REGION?

How are students exercising school choice, and how far are they traveling?

### STUDENTS WHO ATTEND NON-ZONED SCHOOL IN REGION

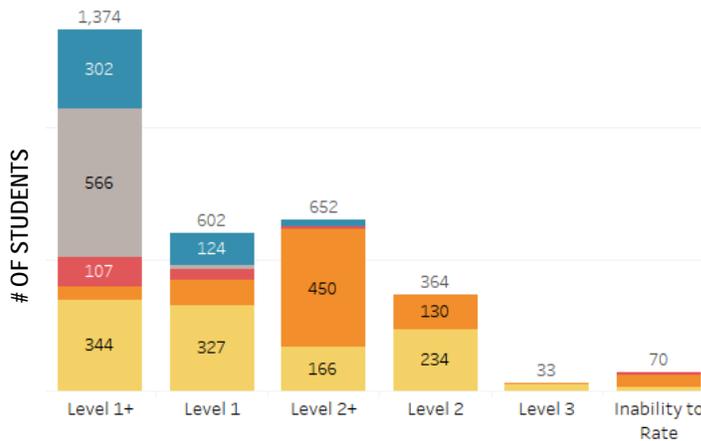

Of the 35% of CPS elementary students who go to a non-zoned school in the region (see previous page), most attend a Level 1 or Level 2+ school. Many students attend non-zoned attendance area schools of all SQRP levels. About 1,000 students also attend charter schools and about 500 attend selective enrollment schools.

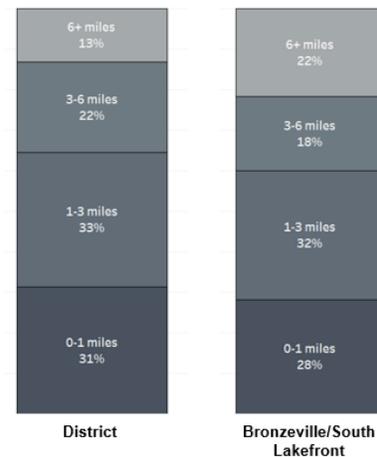

Of the 27% who go outside the region for school (see previous page), many go to Level 1+ schools, often selective enrollment and magnet schools.

28% of students not attending their zoned school stay within one mile of their home; 22% travel over six miles for school.

## ARE STUDENTS CHOOSING SCHOOLS IN THEIR REGION?

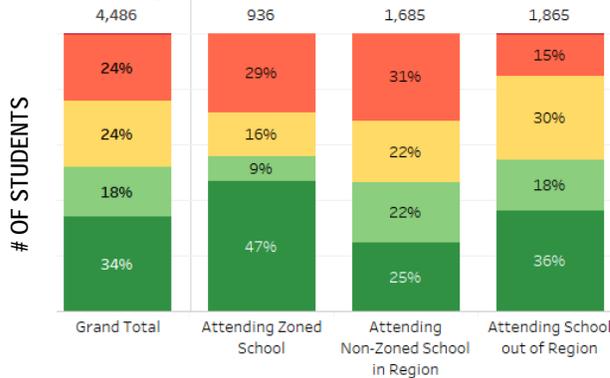

### SCHOOL CHOICE OVER TIME

School choice is currently defined as attending a school that is not a student's zoned school. School choice has increased slightly among CPS high school students. In the past four years, the share of CPS students attending their zoned school dropped from 23% to 21%, and the share of students leaving the region for school increased from 40% to 42%.

### QUALITY BY SCHOOL CHOICE

Of the 4,486 CPS high school students residing in the region, 52% attend a Level 1+/1 school. However, breaking this down by school choice shows that there is a slight disparity in the share of students attending a Level 1+/1 school. 56% of students attending their zoned schools and 54% of students who go outside the region attend a Level 1+/1 school. Only 47% of students who stay in the region and attend a non-zoned school attend a Level 1+/1 school.

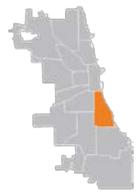

### STUDENTS WHO ATTEND SCHOOL OUT OF REGION – RACIAL/ETHNIC BREAKDOWN

Of the 1,865 CPS high school students attending school outside the region (see above), 54% attend a Level 1+/1 school. However, this percentage varies by race/ethnicity. There are only a few Asian and White students in the BSL region who attend school outside the region; however, the rates at which they attend Level 1+/1 schools are much higher than the African American student rate (97% and 95% compared to 50%).
