GREATER MILWAUKEE AVENUE REGION

DEMOGRAPHIC COMPOSITION

The Greater Milwaukee Avenue region is becoming slightly less Hispanic and Black and more White.

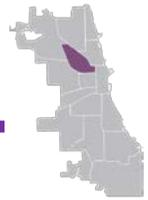

The Greater Milwaukee Avenue region is seeing a slight drop in the number of Hispanic and African American CPS students who live in the region. In the past four years, the share of Hispanic students has dropped from 77% to 75% and the share of African American students

has dropped from 10% to 9%. The share of White students has risen from 10% to 12%. The number and share of students qualified for FRL has also dropped from 86% to 76% in the past four years, which is consistent with the district's decrease.

The Greater Milwaukee Avenue region encompasses areas and neighborhoods of varying socioeconomic backgrounds. Wealthier neighborhoods are concentrated on the eastern side of the region, with Western Avenue as an approximate divider. Areas to the east of Western Ave tend to have higher median household incomes.

CHOICE

ARE STUDENTS CHOOSING SCHOOLS IN THEIR REGION?

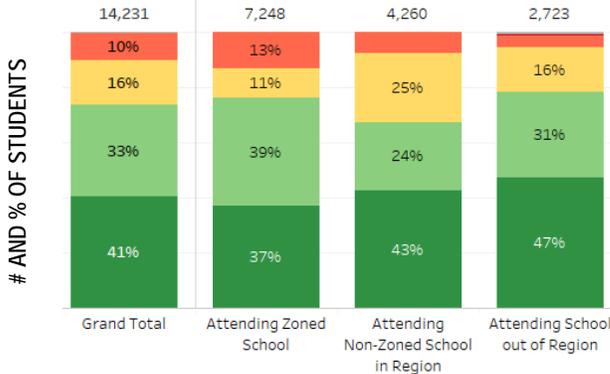

ELEMENTARY SCHOOL³

SCHOOL CHOICE OVER TIME

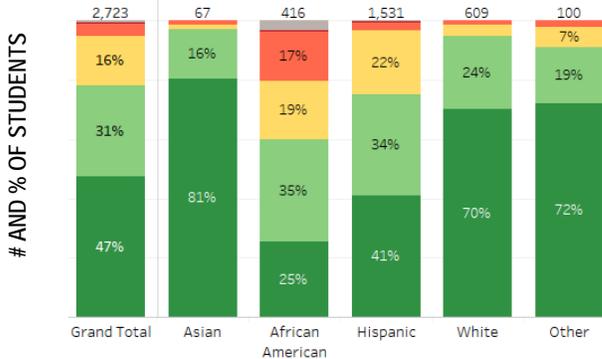

School choice is currently defined as attending a school that is not a student’s zoned school. School choice has increased moderately among CPS elementary school students. Although they are mainly choosing schools in their region, they are less often attending their zoned school. In the 2017-2018 school year, 51% of students attended their zoned school, compared to 56% in 2014-2015. 30% attended a non-zoned school in the region, compared to 26% in 2014-2015.

SCHOOL QUALITY AND CHOICE

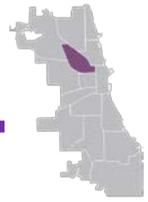

Of the 14,231 CPS elementary students residing in the region, 74% attend a Level 1+/1. This rate is relatively constant by school choice. 78% of students who go outside the region attend a Level 1+/1 school, compared to 76% of students who attend their zoned schools and 67% of those who attend a non-zoned school in the region.

STUDENTS WHO ATTEND SCHOOL OUT OF REGION – RACIAL/ETHNIC BREAKDOWN

Of the 2,723 CPS elementary students who attend school outside of the region (see above), 78% attend a Level 1+/1 school. However, African American and Hispanic students who go outside the region are less likely to attend Level 1+/1 schools than White or Asian students. 60% of African American students who leave the region for school attend a Level 1+/1 school, compared to 75% of Hispanic students. 94% of White students who leave the region attend a Level 1+/1 school, as do 97% of Asian students.

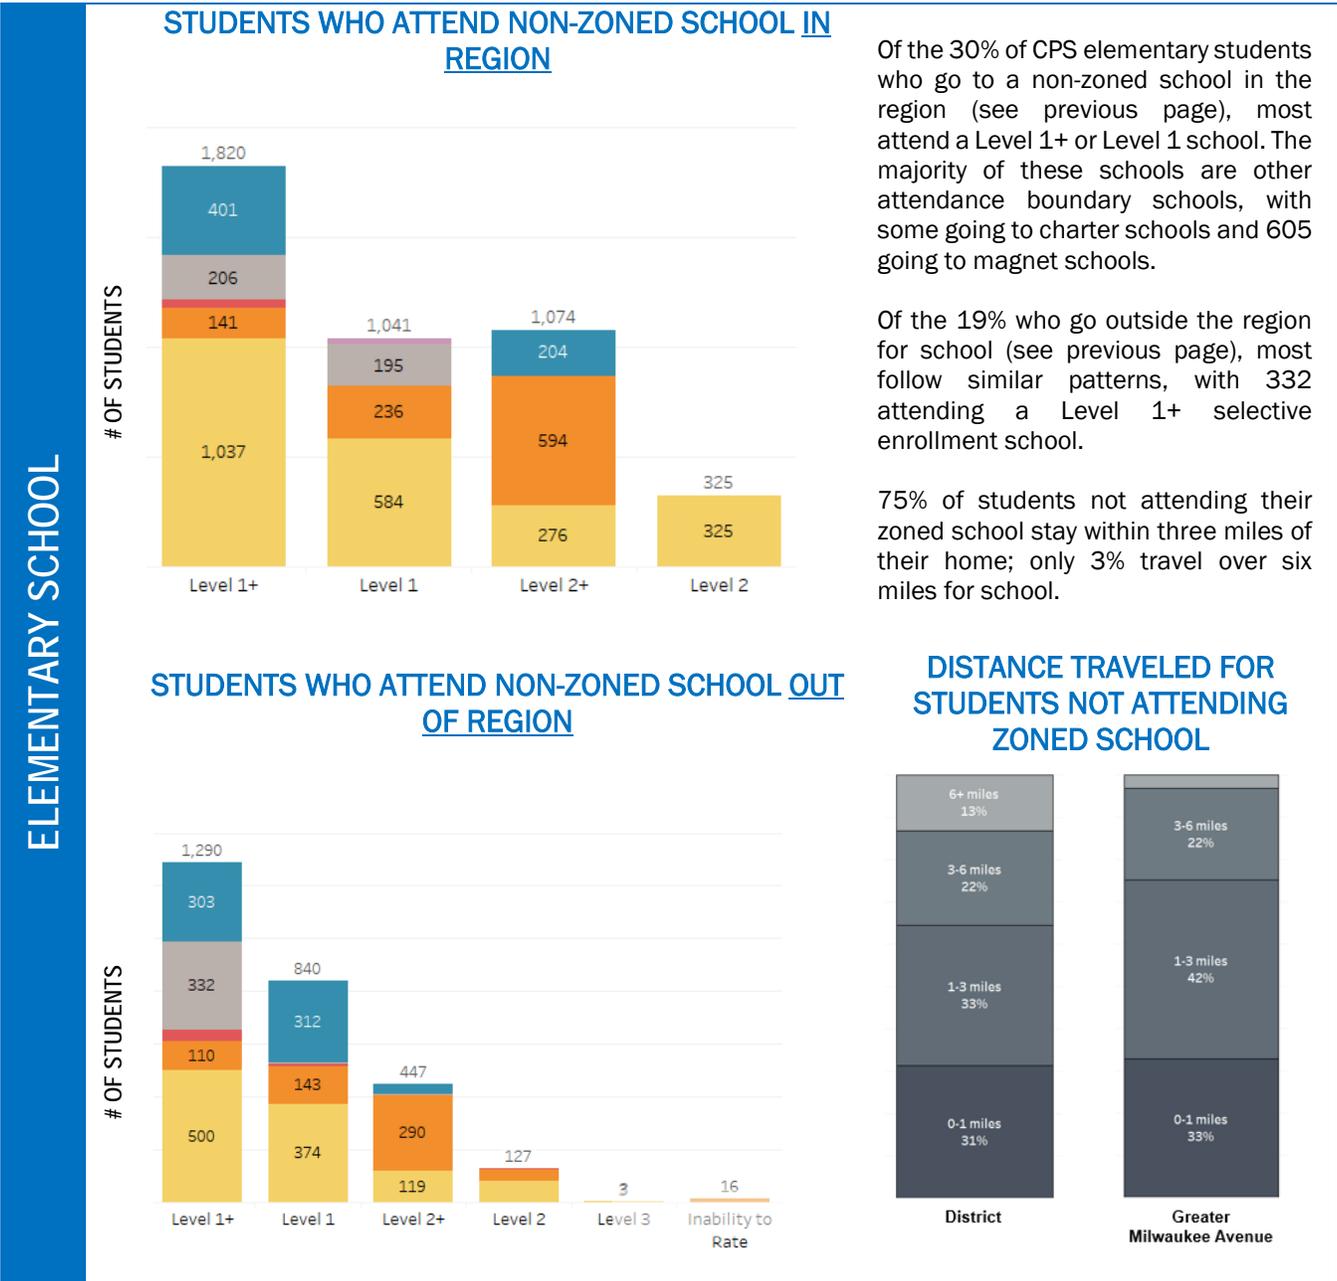

³ Only kindergarten through 8th grade students are included in school choice calculations, as pre-kindergarteners are not zoned to a school.

HIGH SCHOOL

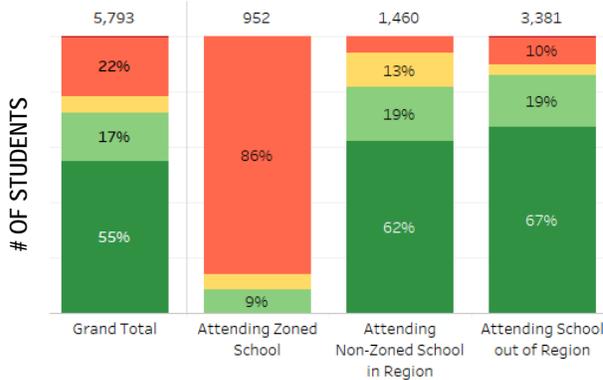

SCHOOL CHOICE OVER TIME

School choice is currently defined as attending a school that is not a student's zoned school. School choice has increased significantly for CPS high school students who live in the region. In the 2017-2018 school year, 16% of high school students attended their zoned school, and 25% stayed in the region at a non-zoned school.

- Attending Non-Zoned School in Region
- Attending Zoned School

QUALITY BY SCHOOL CHOICE

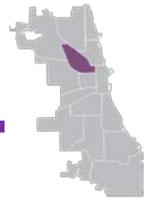

Of the 5,793 CPS high school students residing in the region, 72% attend a Level 1+/1 school. However, this rate varies significantly by school choice. 86% of students who attend school outside the region attend a Level 1+/1 school; 81% of students who attend a non-zoned school in region do. For students attending their zoned school, that number is 9%.

STUDENTS WHO ATTEND SCHOOL OUT OF REGION – RACIAL/ETHNIC BREAKDOWN

Of the 3,381 CPS high school students attending school outside the region (see above), 86% attend a Level 1+/1 school. However, African American students who attend school outside the region are much less likely to attend a Level 1+/1 school than Asian or White students. 57% of African American students who go outside the region attend a Level 1+/1 school, compared to 96% of Asian students and 97% of White students.

STUDENTS WHO ATTEND NON-ZONED SCHOOL IN REGION

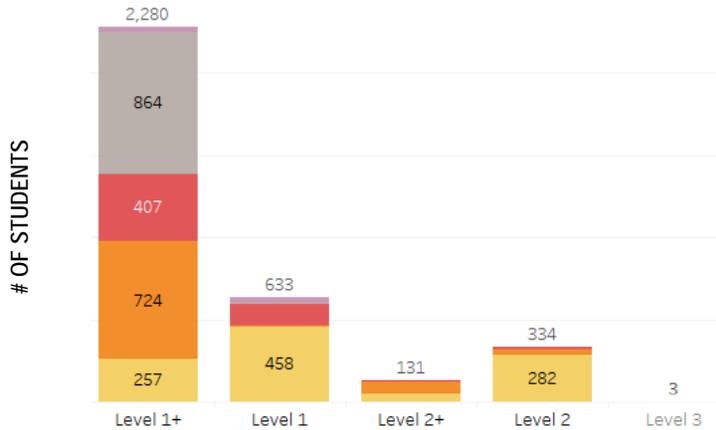

Of the 25% of CPS high school students who attend a non-zoned school in region (see previous page), the majority attend a Level 1+ charter school, and, to a lesser extent, Level 1 or 2+ charter schools.

Of the 58% who travel outside the region (see previous page), the majority attend a Level 1+ school, including almost 900 at selective enrollment schools and over 700 at charter schools. A significant number are also attending Level 1 boundary schools outside the region.

Of students not attending their zoned schools, almost half (47%) travel over three miles to school; 8% travel over six miles.

VARIETY

DO STUDENTS HAVE ACCESS TO THE VARIETY OF SCHOOLS AND PROGRAMS OFFERED?

The Program Density Index measures the “density” of certain programs in each region. The index is calculated as the number of program seats per 100 age-eligible students who reside in the region and can be used to compare program seats across regions. For more information about types of programs, visit <http://go.cps.edu/>.
