Your career in construction starts here!

ChicagoBuilds.org
“Graduates of apprenticeship programs enjoy an estimated $250,000 increase in lifetime earnings” — Harvard Business Review

The most in-demand career in the United States is a skilled trade worker. It is also the hardest vacancy to fill because people lack the necessary skills.*

Get the skills and experience employers want!

Students in Chicago Builds:
- Gain the technical skills needed to start your career
- Earn certifications required for a career in construction
- Make money through internships
- Prepare for union entrance exams
- Earn up to 4 high school credits
- Develop a post-secondary plan for success

*ManpowerGroup’s Annual Talent Shortage Survey 2015

Chicago Builds Construction Campus at Dunbar is the city's first comprehensive citywide trades program. 11th and 12th grade CPS students travel to Chicago Builds for the second part of their regular school day to receive in-depth exposure to the construction industry and gain skills necessary for a career in construction.

**Fields of Study**

- Carpentry
- Electricity
- HVAC (Heating & Cooling)
- Welding
- General Construction

**How to Apply**
- Be a current 10th or 11th grade CPS student
- Have an interest in construction
- Commit to traveling to the Chicago Builds Construction Campus everyday
- Visit ChicagoBuilds.org to learn more and complete an application
