

What To Do If You Are Exposed To COVID-19 In School

1. **Stay in school, but wear a mask for 10 days.**

Anyone who is exposed to COVID-19 in school may remain in school regardless of vaccination status, as long as they wear a mask for 10 days.

2. **Get tested after exposure.** CPS strongly recommends testing for COVID-19 on the Monday and Thursday after exposure; you can get free rapid COVID-19 tests from your school.

3. **Test Negative post exposure: Stay in school!** If a student or staff member tests negative, they can remain in school wearing a mask for 10 days after their exposure.

4. **Test Positive: Isolate at home.** If a student or staff member tests positive, they must isolate at home for the next 5 calendar days and self-report the positive result at cps.edu/covidresults.
