

# COLLABORATIVE PROCESS WITH OUR DENTAL PROGRAM FOR CPS STUDENTS WITHOUT A SCHOOL BASED HEALTH CENTER

1

## Consent forms

In partnership with CDPH, we provide Dental Providers who offer preventative services at no cost to families, as long as the student has a signed consent form

2

## Coordinate

Once the school has collected the dental consent forms, the provider will work with the school to schedule the dental exams. Call your school to see if they will offer dental this school year

3

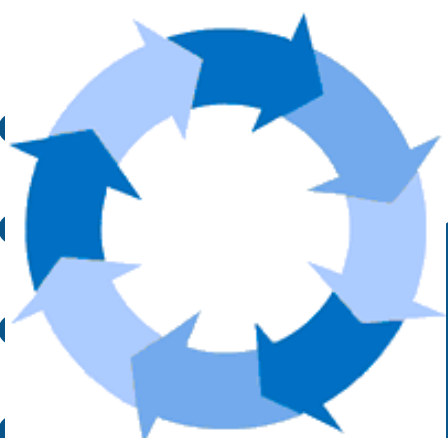

## Dental Exam

Dental exams take place during the school day (about 15 minutes per exam) and each student is given a "Walk out Letter" with the result of the exam and if they need further treatment

5

## Repeat

Students who have a healthy mouth can have a health start. The state requires for CPS to ensure that students in grades K, 2<sup>nd</sup>, 6<sup>th</sup> and 9<sup>th</sup> have a proof of dental exam. Every school year we work to provide dental exams for students in need

## Referral

Our providers make sure to provide families with referrals closer to home to help families find their medical home.

## Full Dental Support

When we have a SBHC and our CDPH providers collaborating it allows a system to establish dental care opportunities for students who need preventative and restorative dental services. For example, we are able to support Hibbard and Albany Park Academy students throughout the school year because of that partnership

## Referral

Thanks to our collaboration between our CPS/CDPH provider and the Tapestry 360 Hibbard clinic, we can refer any student we have seen for restorative services right at the school clinic serving as a medical home
